CAREER OBJECTIVE

Unity gameplay programmer with hands-on experience in game jams, client projects, internship development, and national-level game competitions. Skilled in building gameplay systems, game architecture, and optimization solutions using C#. Seeking a game programmer role where I can contribute to engaging player experiences while continuing to grow as a developer.

PROJECTS

POGS (February - May 2026)

Internship Project | Programmer, Game Designer

- Developed casual mobile gameplay systems focused on progression and collection mechanics.
- Designed core gameplay loop and implemented gameplay mechanics.
- Implemented optimization techniques including texture atlas, camera culling, and object pooling to improve game performance.

Don't Touch My Duck (June - July 2025)

Globe Go Gaming Finalist | Programmer, 3D Animator

- Developed core gameplay systems for a competitive game jam entry recognized as a national finalist.
- Implemented gameplay mechanics and interactive systems.
- Created character walk and attack animations using Blender.

ElemenTical (August - September 2025)

Client-Based Project | Programmer, Graphic Designer

- Developed an educational mobile game teaching periodic elements through interactive gameplay.
- Implemented gameplay logic and UI systems in Unity.
- Designed the physical cards used for face-to-face gameplay.

Santelmo (November - December 2025)

Bicol Myth Game Jam Finalist | Programmer, Game VFX Artist

- Led development of an action-adventure game inspired by Bicol mythology.
- Created gameplay systems and visual effects to enhance player immersion.
- Contributed to overall team direction and game design execution.

EDUCATION

Bicol State College of Applied Sciences and Technology (2022 - 2026)

BACHELOR OF SCIENCE IN ENTERTAINMENT AND MULTIMEDIA COMPUTING
MAJOR IN GAME DEVELOPMENT

AMA COMPUTER LEARNING CENTER (2020 - 2022)

TECHNICAL-VOCATIONAL LIVELIHOOD (TVL)
SPECIALIZATION: COMPUTER PROGRAMMING
